

# ST RM - STRIP REMOTE BALLAST

Project		
Catalog #		
Volts		Lamp(s)
Ballast Type		
Type		Date
Approved by		

### General

Low profile strip fixtures operated by remote ballasts are ideal for applications requiring lighting in very shallow spaces such as display cabinets and show cases.

### Housing & Finishing

The strip and the ballast housing are made of die-formed pre-painted cold rolled steel finished in high-gloss white.

The body has a knockout beyond the socket to enable connecting it to the remote ballast.

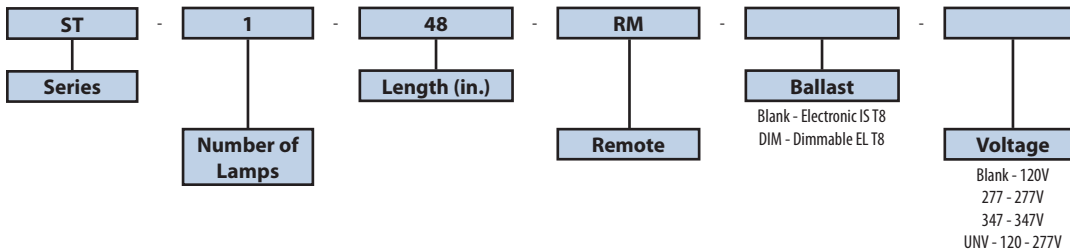

### Electrical

Available in electronic ballasts only.  
Available voltages: 120V/277V/347V and UNV.

### Approval

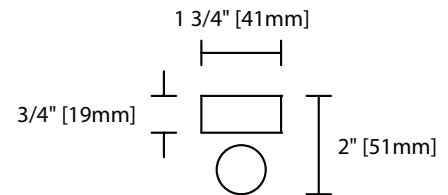

CSA and UL certified.
